1. Prestapress contains 4 folders corresponding to its 4 modules :

- **Prestapress** : Prestapress core files, install, admin tabs, configuration etc...
- **Prestapresscategories** : only a block to display Prestapress categories in front office.
- **Prestapresslastblock** : only a block to display recent posts in front office.
- **Prestapressblocksearch** : search block with input field to search in articles

2. Upload the 4 folders to your Prestashop modules/ directory

3. In Prestashop Back Office Modules tab, install the 4 Prestapress modules.

<input type="checkbox"/>	 Prestapress module v1.9 Module de publication de contenu	Supprimer Desactiver Réinitialiser Configurer	✓	Désinstaller
<input type="checkbox"/>	 Prestapress bloc recherche v1.9 Ajoute un bloc pour la recherche des articles	Supprimer Desactiver Réinitialiser Configurer	✓	Désinstaller
<input type="checkbox"/>	 Bloc catégories Prestapress v1.9 Ajoute un bloc pour afficher les catégories Prestapress	Supprimer Desactiver Réinitialiser Configurer	✓	Désinstaller
<input type="checkbox"/>	 Bloc derniers articles Prestapress v1.9 Ajoute un bloc pour afficher les derniers articles Prestapress	Supprimer Desactiver Réinitialiser Configurer	✓	Désinstaller

There is “**Configure**” link that allow you to change module settings.

4. In Modules sub navigation menu, new “Prestapress” tab have been created.

The screenshot shows the Prestashop Back Office interface. The top navigation bar includes tabs for Catalogue, Clients, Commandes, Paiement, Transport, Stats, Modules, Employés, Préférences, and Outils. The Modules tab is active, and a sub-tab for Prestapress is visible. The breadcrumb trail reads: Panneau d'administration >> Modules >> Prestapress. Below the breadcrumb, there is a section for 'Articles' with a 'Nouveau' button. A pagination bar shows 'Page 1 / 1 | Afficher 50 / 7 résultat(s)' and buttons for 'Réinitialiser' and 'Filtrer'. A table lists installed modules with columns for ID, Statut, Titre, Date de parution, and Actions. The table contains 7 rows of data, with the first row being a header and the following 6 rows representing installed modules. The 'Statut' column shows a warning icon for ID 13 and a green checkmark for all other modules. The 'Actions' column contains edit and delete icons for each module.

ID	Statut	Titre	Date de parution	Actions
--	--		--	--
13	⚠	Nouveau module Pslideshow	10-05-2011	 
12	✓	Nouveau module Prestapress	20-04-2011	 
6	✓	Création de note page Facebook	16-03-2011	 
5	✓	Google +1 Bouton	19-04-2011	 
4	✓	IPAD 2 en vente sur notre boutique	06-04-2011	 
3	✓	Nos partenaires 2011	20-04-2011	 
2	✓	Barcamp Prestashop	02-04-2011	 

Below the table, there is a button labeled 'Supprimer la sélection'. Below this, there is a section for 'Catégories' with a 'Nouveau' button.

That's all, now you can create articles and categories.

In front office, if you want to skin the module with your colors and your layout, you need to edit the “**prestapress.css**” located in **modules/prestapress/**

Images :

Directory "modules/prestapress/uploads/" must be writable, (chmod 777)

Directory "modules/prestapress/uploads/cache/" must be writable, (chmod 777)

URL Rewriting :

To enable URL rewriting, you must **enable the option in Prestapress configuration**

You will see in configuration 2 rules like this

```
RewriteRule ^article(.*) YOUR_PRESTASHOP_FOLDER /modules/prestapress/content.php [QSA,L]
```

```
RewriteRule ^articles(.*) YOUR_PRESTASHOP_FOLDER /modules/prestapress/content.php [QSA,L]
```

You need to copy it in your .htaccess file located in the root directory of your server.

Demo :

<http://demo.appside.net/prestashop1/articles>

Enjoy!
